

Position: SAP PROJECT MANAGER | **Job No:** 5118

Location: USA - Remote Working + 20% Travel to West Coast as required

Type: Permanent | **Employer:** Multi-National Consultancy

Salary: Negotiable / Dependent on Experience

Start: ASAP or ideally within 30 days from potential offer of employment

Job Description

- We are seeking a SAP Project Manager for the US West Coast (100% Allocation)
- We require GMP experience to lead and manage complex M&A Integration projects.
- You will be responsible for delivering large-scale projects focused on M&A integration with tasks including Project Planning, Concept, Tracking, Reporting, Budget Oversight, Vendor Relationship Management.
- These activities will be within the pharmaceutical industry, and you will lead mid- to large-sized teams, taking full ownership of the project lifecycle to ensure projects are delivered on time, within scope, and within budget while meeting business objectives.

What you will be doing:

- Lead cross-functional teams across multiple departments, ensuring timely completion of project tasks and driving alignment among stakeholders.
- Develop and manage detailed project plans, covering scope, timelines, resource allocation, and budget.
- Oversee the full lifecycle of M&A integration projects within the remit of the role.
- Facilitate regular meetings, provide consistent status updates, and maintain clear communication across all organizational levels.
- Identify and mitigate risks, ensuring all project deliverables meet or exceed quality standards.
- Maintain detailed project documentation, ensuring adherence to organizational standards and GMP regulations, and lead post-project reviews to drive continuous improvement.
- Onsite travel to the West Coast is planned up to 20%.

Requirements

- 6-10 years of experience managing M&A integration projects, with at least 3 projects in the pharmaceutical industry.
- Strong understanding of SAP systems and GMP compliance.

- Proven leadership skills in managing complex, large-scale projects and cross-functional teams.
- Excellent communication skills.
- Demonstrated ability to identify, escalate, and mitigate risks in high-complexity projects.
- Proficiency in project management tools, with the ability to quickly adapt to specialized industry software.
- PMP certification preferred, educational background in business, IT, or related fields.
- Fluency in English.

What do we offer?

- Participate in the project of a huge international company – multicultural environment.
- REMOTE role for a candidate based in PST timezone (Pacific Standard Time).
- Candidate must be available to travel 20% of the time to US West Coast
