Job Description

Our client is going through an exciting and transformative period as a global leader and pioneering provider of sustainable Biosimilar and Generic medicines. By creating a new and ambitious path, it will provide a unique opportunity for us all, both professionally and personally. Join us, the future is ours to shape!

Your Key Responsibilities

Your responsibilities include, but not limited to:

- Translation of global category strategy into global, divisional, subcategory strategy and local implementation
- Lead the external workforce transformation and implementation of sourcing plans and deliver category savings targets following engagement in the target setting process
- Provide input into the overall category strategy about segmentation and identification of key supplier relationships, and lead business planning activities and ensure these projects are staffed and executed on a timely basis in line with the targeted goals
- Manage strategic category supplier relationships, and implement consistent key performance indicators for the category manager, ensuring that any supplier performance risks and issues are resolved on a timely basis to end-user satisfaction
- Collect supplier information and feedback from countries, sites, Category teams and Business Partners, and deliver Procurement Balanced Scorecard metrics for the relevant category
- Develops and applies comprehensive knowledge of market trends, industry best practices, and emerging technologies related to the categories managed, and incorporate new ideas and innovations into sourcing strategies
- Create, apply, complete and reviews major contracts for the sub-category, and ensure that negotiated contracts are clearly communicated for the External workforce -category area and that they are consistently applied over total managed spend
