Position: Alveo Developer (5+ Yrs Exp)

Location: Hybrid from Pune, INDIA

Start: As Soon As Possible / Immediate Availability preferred

Employer: Multi-National Consultancy

CTC: Dependent on Experience

Job Ref: 5158

Job Description:

We are seeking a skilled and experienced Alveo/Asset Control professional to join our MDS team at our Customer. The ideal candidate will have a strong background in Alveo products and financial data management, along with expertise in scripting and system administration. The role requires close collaboration with cross-functional teams to ensure seamless data management, normalization, and consolidation.

Key Responsibilities:

- Develop, manage, and optimize Alveo products, including Formula Engine, IECL, Normalization, Consolidation, Price Consolidation, AC Prime, and AC desktop clients.
- Work on Unix/Linux environments, utilizing Git/Bitbucket for version control and Bamboo/JIRA for project management.
- Develop and maintain bash and Perl scripts for automation and system operations.
- Collaborate with internal teams to enhance data processes and ensure efficiency in Alveo implementations.
- Troubleshoot and resolve issues related to Alveo systems, ensuring minimal downtime.
- Stay updated with the latest trends and technologies in financial data management and Alveo product suite.

Required Skills & Experience:

- Strong knowledge and hands-on experience with Alveo products, including but not limited to Formula Engine, IECL, Normalization, and AC Prime.
- Proficiency in Unix/Linux operating systems and experience working with Git/Bitbucket, Bamboo, and JIRA.
- Expertise in scripting languages such as Bash and Perl.

Preferred Skills (Good to Have):

- Experience working with OPS 360, a new Alveo product.
- Knowledge of Cronacle Scheduler for job scheduling and automation.

t: +44(0)7399 575 082 | e: candidates@frs-online.com | w: <https://FRS-online.com>

- Familiarity with Java, Spring Boot, and SQL for application development and data management.

Qualifications:

- Bachelor's or Master's degree in Computer Science, Information Technology, or a related field.
- 5+ years of experience in Alveo/Asset Control and financial data management.
- Strong problem-solving skills and the ability to work in a dynamic team environment.
