

**Position: AI Claude – Solution Architect (10-12 Years Experience)**  
**Location: New York, USA**  
**Start: As Soon As Possible / Immediate Availability preferred**  
**Type: Contract**  
**Rate: Flexible / Most Competitive Candidate Hourly Rate Requested**  
**Employer: Multi-National Consultancy**  
**Job Ref: 5161**

### **Required Skills & Experience**

- We are seeking a highly skilled and forward-thinking AI Solutions Architect with strong experience in Generative AI technologies, particularly around the Claude ecosystem and enterprise AI solutioning.
- The ideal candidate should possess deep technical expertise in designing scalable AI architectures, defining enterprise AI adoption strategies, and delivering AI-driven use cases for clients across industries.
- This role requires someone who can engage with business stakeholders, understand client challenges, architect AI solutions, and lead implementation initiatives involving Claude, LLMs, AI agents, and enterprise AI platforms.
- Candidates with exposure to Claude certifications, enterprise AI governance, and production-grade AI deployments will be strongly preferred.

### **Key Responsibilities**

- Design and architect enterprise-grade AI and Generative AI solutions using Claude and related AI ecosystems
- Collaborate with clients to identify, assess, and define AI-driven business use cases
- Lead technical solutioning workshops and AI discovery sessions with stakeholders
- Define scalable architectures for AI applications, AI agents, orchestration layers, and AI governance frameworks
- Work closely with engineering teams to guide implementation, integration, and deployment of AI solutions
- Design secure, scalable, and compliant AI systems aligned with enterprise architecture standards
- Build AI reference architectures, accelerators, reusable frameworks, and implementation best practices
- Support AI model integration, prompt engineering strategies, RAG architectures, and agentic workflows
- Evaluate emerging AI technologies and recommend suitable approaches for client use cases
- Contribute to AI capability building, pre-sales discussions, proposals, and solution demonstrations
- Ensure AI solutions align with responsible AI, governance, observability, and security considerations

### Required Skills & Qualifications

- 10–12 years of overall technology experience with strong architecture and solutioning background
- Hands-on experience working with Claude and enterprise Generative AI ecosystems
- Exposure to Claude certifications or equivalent AI platform certifications preferred
- Strong understanding of:
  - Large Language Models (LLMs)
  - AI Agents / Agentic Frameworks
  - Prompt Engineering
  - Retrieval-Augmented Generation (RAG)
  - AI orchestration frameworks
  - AI governance and observability
- Experience designing AI-powered enterprise applications and workflows
- Strong understanding of cloud platforms such as Azure or AWS
- Experience integrating AI solutions with enterprise systems and APIs
- Strong communication and stakeholder engagement skills
- Ability to translate business problems into scalable AI architectures

### Preferred Skills

- Experience with Azure AI Foundry, OpenAI, Claude, LangChain, Semantic Kernel, or similar ecosystems
- Exposure to vector databases, embeddings, and knowledge retrieval systems
- Understanding of enterprise security, compliance, and AI risk management
- Experience in AI use case consulting and client workshops
- Familiarity with Python-based AI development ecosystems
- Exposure to DevOps/MLOps and AI deployment pipelines

### Certifications

- Azure AI Engineer Associate (AI-102) – Preferred
- Azure Solutions Architect Expert (AZ-305) – Preferred
- Claude / Generative AI platform certifications or equivalent experience – Preferred

## Are You or Anyone You Know Interested?

Please express interest by **email to Sanjay using [sanjay@frs-online.com](mailto:sanjay@frs-online.com)** adding the following **Job reference 5161** in the subject-line after providing **required responses to points below**:

1. CV & Contact Details (email, telephone with current city):
2. Availability (earliest start date or current notice period):
3. Expected USD / \$ Hourly Rate:
4. If not USA Citizen what is your Eligibility to Work on Contract basis / Visa type and Visa Expiry Date:
